BAND

FNB Human Resource Department approached us beginning of June 2016, requesting that we partake in their City 10K run and we accepted. From that month we were busy preparing music for the occasion and by the time we played on that day the preparation paid out. We were located along Albertina Sisulu and Commissioner Street where thousands of runners would pass by.

The boys had a wonderful time and the music was played professionally. We played until the last runner passed by. On the other side of the interchange was a beggar by the robots, the way this guy was dancing even the traffic slowed down to listen to both the music and watch the guy dance.
